

**Dunside Wind Farm**  
**Environmental Impact Assessment (EIA) Report**  
**Volume 3a: Figures**

**Prepared by**  
**LUC**  
**on behalf of**  
**EDF Energy Renewables Ltd**

**June 2023**

## Preface

This Environmental Impact Assessment Report (EIA Report) has been prepared in support of an application by EDF Energy Renewables Ltd (EDF-ER) ('the Applicant') to the Scottish Government Energy Consents Unit (ECU) for Section 36 consent to construct and operate Dunside Wind Farm (the 'Proposed Development'). The proposed site (the Site) is located approximately 6 km north of Westruther and 7 km west of Longformacus in the Scottish Borders Council (SBC) administrative area. The Proposed Development will comprise up to 15 wind turbines with battery storage and other associated infrastructure.

The EIA Report comprises the following volumes:

- Volume 1: Non-Technical Summary (NTS);
- Volume 2: Main Report;
- Volume 3a: Figures (this volume);
- Volume 3b: Visualisations;
- Volume 4: Appendices; and
- Volume 5: Confidential Documents.

In addition to the above, the application is accompanied by a standalone Planning and Energy Policy Statement, a Design and Access Statement, a Pre-Application Consultation (PAC) Report and a Socio-Economic and Tourism Assessment.

A hard copy of the EIA Report will be available for public viewing during the application consultation period at the following address:

Haddington Library	Scottish Borders Council Office	Westruther Village Hall
15 Lodge St,	Council Headquarters,	6 Edgar Road,
Haddington	Newtown St. Boswells, Melrose,	Westruther, Gordon,
EH41 3DX	TD6 0SA	TD3 6ND

A copy of the NTS can be requested free of charge. A hard copy of the EIA Report is available on request for £500. All documents are available to download from the project website ([dunsidewindfarm.co.uk](http://dunsidewindfarm.co.uk)) or can be posted upon request in electronic format on USB free of charge.

The EIA Report will also be available for public viewing online via the Scottish Government ECU planning portal (<https://www.energyconsents.scot/ApplicationSearch.aspx>).

Any public representations to the application may be submitted via the ECU website at [www.energyconsents.scot/Register.aspx](http://www.energyconsents.scot/Register.aspx); by email to the Scottish Government, Energy Consents Unit mailbox at [representations@gov.scot](mailto:representations@gov.scot); or by post to the Scottish Government, Energy Consents Unit, 4th Floor, 5 Atlantic Quay, 150 Broomielaw, Glasgow, G2 8LU, identifying the proposal and specifying the grounds for representation. The Applicant will advertise the submission of the Section 36 application in the local and national press and on the dedicated project website. The advert will state the deadline for submitting representations to Scottish Ministers.

# Volume 3a: Figures

## Contents

### Chapter 1: Introduction

Figure 1.1: Site location

### Chapter 2: Site Selection and Design Strategy

Figure 2.1a: Layout 1 to Layout 4

Figure 2.1b: Layout 5 to Layout 8

Figure 2.1c: Layout 9 to Layout 12

Figure 2.2: Layout 13: Final Layout

Figure 2.3a: Comparison wireframes - Scoping Twin Law Cairns + Design Freeze Twin Law Cairns

Figure 2.3b: Comparison wireframes - Scoping Westruther + Design Freeze Westruther

Figure 2.3c: Comparison wireframes - Scoping Mutiny Stones + Design Freeze Mutiny Stones

Figure 2.4: Constraints Plan

### Chapter 3: Development Description

Figure 3.1: Site Layout

Figure 3.2: Indicative turbine elevation 220 m Tip Height

Figure 3.3: Typical Turbine Foundation

Figure 3.4: Typical Crane Hardstanding

Figure 3.5: Typical Cable Trench

Figure 3.6: Proposed Substation Expansion

Figure 3.7: Indicative Battery Storage Facility

Figure 3.8: Outline Access Junction Design

Figure 3.9: Typical Access Track Details

Figure 3.10: Typical Watercourse Crossing Details

Figure 3.11a-d: Proposed Construction Compound 1-4

Figure 3.12: Substation Plan and Elevation

Figure 3.13: Recreational Access Routes

### Chapter 4: Landscape and Visual Impact Assessment

Figure 4.1.1: Landscape and Visual Impact Assessment Study Area

Figure 4.1.2a: Blade Tip Height (220m) Zone of Theoretical Visibility (ZTV) and Viewpoint Locations

Figure 4.1.2b: Blade Tip Height (220m) Zone of Theoretical Visibility (ZTV) and Viewpoint Locations

Figure 4.1.3a: Hub Height (130m) Zone of Theoretical Visibility (ZTV) and Viewpoint Locations

Figure 4.1.3b: Hub Height (130m) Zone of Theoretical Visibility (ZTV) and Viewpoint Locations

Figure 4.1.4: Landscape Character Types

Figure 4.1.5: Landscape Character Types with Blade Tip Height (220m) Zone of Theoretical Visibility (ZTV)

Figure 4.1.6: Designated Landscapes

Figure 4.1.7: Designated Landscapes with Blade Tip Height (220m) Zone of Theoretical Visibility (ZTV)

Figure 4.1.8: Other Wind Farm Developments (60km)

Figure 4.1.9: Other Wind Farm Developments included in the Cumulative Assessment (45km)

Figure 4.1.10: Cumulative ZTV - Operational Wind Farms and Dunside (20km)

Figure 4.1.11: Cumulative ZTV - Operational and Consented Wind Farms and Dunside (20km)

Figure 4.1.12: Cumulative ZTV - Operational, Consented and Proposed Wind Farms and Dunside (20 km)

Figure 4.1.13: Cumulative ZTV - Operational, Consented and Proposed Wind Farms (including Scoping) and Dunside (20km)

Figure 4.1.14: Cumulative ZTV - Dunside and Fallago Rig (20km)

### Chapter 5: Cultural Heritage

Figure 5.1: The Location of Heritage Assets within the Site

Figure 5.2: The Location of Heritage Assets within the Inner Study Area

Figure 5.3: The Location of Designated Heritage Assets within the Outer Study Area

Figure 5.4: The Location of Visualisations to Inform the Assessment of Setting Change

### Chapter 6: Ecology\*

Figure 6.1: Ecology Study Area

Figure 6.2: Statutory designated areas within 10km of the Site and Non-statutory designated sites within 2km of the Site.

Figure 6.3: Phase 1 Habitat Plan

Figure 6.4: National Vegetation Classification Survey Plan

Figure 6.5: Areas of Guidance-stated Potential Groundwater Dependency (GWDTE).

Figure 6.6: Protected Species Plan

Figure 6.7: Static Bat Detector Equipment Locations

Figure 6.8: Bat Activity Map

Figure 6.10a: Outline Restoration and Enhancement Plan Figures

Figure 6.10b: Outline Restoration and Enhancement Plan Sketch

Figure 6.11: Peat Condition Assessment Map

### Chapter 7: Ornithology\*

Figure 7.1: Site boundary and study areas

Figure 7.2: Vantage Points and Viewshed: Sept 2020 to mid-march 2022

Figure 7.3: Vantage Points and Viewshed: Mid-march 2022 to November 2022

Figure 7.4: Ornithological Designated Sites within 20km

Figure 7.5: Raptor Activity: November 2020 to August 2022

Figure 7.6: Flight Activity Survey Records: Golden Eagle

Figure 7.7: Golden Eagle Topographical (GET) Model

Figure 7.8: Flight Activity Survey Records: Goshawk

Figure 7.9: Flight Activity Survey Records: Hen Harrier

Figure 7.10: Flight Activity Survey Records: Marsh Harrier

Figure 7.11: Flight Activity Survey Records: Merlin

Figure 7.12: Flight Activity Survey Records: Peregrine Falcon

Figure 7.13: Flight Activity Survey Records: Red Kite

Figure 7.14: Flight Activity Survey Records: Short-eared Owl

Figure 7.15: Flight Activity Survey Records: White-tailed Eagle

Figure 7.16: Breeding Curlew Activity: 2021 and 2022

Figure 7.17: Breeding Golden Plover Activity: 2021 and 2022

Figure 7.18: Breeding Lapwing Activity: 2021 and 2022

Figure 7.19: Non-Breeding Wader Activity: September 2020 to Aug 2022

Figure 7.20: Flight Activity Survey Records: Curlew

Figure 7.21: Flight Activity Survey Records: Golden Plover

Figure 7.22: Flight Activity Survey Records: Lapwing

Figure 7.23: Goose, Swan and Gull Activity Survey Records: September 2020 to Aug 2022

Figure 7.24: Flight Activity Survey Records: Greylag Goose

Figure 7.25: Flight Activity Survey Records: Herring Gull

Figure 7.26: Flight Activity Survey Records: Pink-footed Goose

## **Chapter 8: Hydrology, Hydrogeology, Geology and Peat**

Figure 8.1: Site Location, showing Hydrological Features, Topography, Private Water Supplies and Abstractions.

Figure 8.2: Watercourses, buffers, catchments and watercourse crossings (Existing and Proposed)

Figure 8.3: Ground Water Dependent Terrestrial Ecosystems (GWDTE), Groundwater abstractions and Private Water Supplies)

Figure 8.4: Solid Geology and Superficial Geology

Figure 8.5: Soils

Figure 8.6: Carbon and Peatlands Classification

Figure 8.7: Peat Depths (combined Phase 1 and Phase 2)

## **Chapter 9: Noise and Vibration**

Figure 9.1: Noise Assessment

## **Chapter 10: Access, Traffic and Transport**

Figure 10.1: Study Area

Figure 10.2: Traffic Count Locations

Figure 10.3: Personal Injury Accident Plan

Figure 10.4: Abnormal Indivisible Load Route

## **Chapter 11: Aviation**

Figure 11.1: VFR 500k Chart Extract

## **Chapter 12**

Figure 12.1: Shadow flicker

\* A number of figures supporting the ecology and ornithology chapters are confidential in nature and therefore not listed within this contents page
